BOMBORA DOWNS SERVICES

AGISTMENT

Seasonal or year round for all ages. Safe fencing for both colts and fillies, we specialise in the growing out of young horses. Well managed paddocks provide year round accommodation where your brood mare can thrive. Short-term agistment also welcome.

SPELLING

Close to both Cranbourne & Mornington training facilities, plus just an hour from the city training centres, our caring environment rejuvenates the racing horse. Plus you or your trainer can visit at any time to check on progress.

TRANSPORT

Being on the Mornington Peninsula we can provide transport to the main training facilities at Mornington and Cranbourne, plus to the many Pre-training facilities available in the area.

BREEDING

Call us to discuss your breeding requirements. We can help tailor your requirements to any one of our Stallions or another stallion of your choice. Walk-on's from the farm can be arranged to outside Stallions.

FOALING

We provide foaling services to any mare regardless of your breeding requirements. 24-7 care is provided by experienced staff with Veterinarian services but a phone call away.

WEANING

All services are provided with branding, vaccination's, DNA testing, micro chipping, plus 2-3 weeks of intensive handling of foals then separation and drying off mares.

YEARLING PREP

This is 8 weeks of individual preparation followed by a first class presentation at all Melbourne sales, with experienced handlers to help sell your yearling. Pre sales promotion and Sirecam listings, x-rays and scoping on request.

MIXED SALES

We attend most Melbourne Sales and can present your horse looking its best on the day.

BREAKING IN

One of the most important steps in the formation of a race horse. We provide 4-6 weeks of quiet work resulting in a soft, well balanced forward moving horse ready for pre training when the time is right.

MARE LEASE

At times we have broodmares available for yearly lease at no cost. If you would like more information on mares available please register your interest at our Stud Office.

WELCOME TO BOMBORA DOWNS

Welcome to the 2014 Bombora Downs stud brochure - to those of us that love the idea of breeding the perfect racehorse this is both a time of anticipation and planning. For us at Bombora we are eagerly anticipating the arrival of the first Jungle Ruler foals, if they look like JR himself the expectation will only grow.

Lago Delight, our proven horse with just off 60% w/r is exceptional value and just goes on getting winners week in week out. More recently his first grand daughter to step out, Peggy Jean, won the Gr 1 Sires Produce and has earned over \$900,000 thus far.

Therock will likely have his first runners over the coming months. His rising 2yo's are an outstanding group and whilst they are not great in number they have been sought out by good stables and will be given every opportunity. Likewise the next 12 months for Annenkov. Whilst he has 2yo's trialling nicely they've yet to be tested and so it is with a great deal of anticipation we approach season 2014.

Which brings us to the planning! Choosing genuinely talented, tough, sound and well conformed stallions that compliment your mare is the first and most vital step on the road to anticipation and Bombora Downs is proud to offer four very affordable stallions that meet those requirements.

Stallions are but part of the mix at Bombora, foaling down for local breeders is one of our specialties, a service that sees us deliver in excess of 100 foals most years. The season is made further busy walking mares on to other stallions around Victoria. Three days a week we have a float on the road which is a service we provide to both resident and local mares.

Weaning, sale preparation, spelling, agistment and breaking in are other services we offer to provide continuity of care for our permanent residents and many local breeders. From very modest beginnings Bombora Downs has steadily grown over the past 11 years into a beautiful farm with excellent facilities and a professional caring staff who are able to cater to all your equine needs.
